

Indivumed has established the world's leading high-content tumor database and highest-quality biobank to support the development of new cancer companion diagnostics and therapies. Aside from having implemented a highly standardized biospecimen collection process and a unique clinical infrastructure with clinical partners in Germany, India, Poland and the US, Indivumed offers a broad range of specialized research services to biopharmaceutical companies and academia and actively performs a cancer biomarker development program. With its subsidiary IndivuTest GmbH, Indivumed provides high-quality tissue-based tumor analysis to patients and started an initiative with oncologists in Germany and the US to improve personalized cancer therapy strategies in the clinical routine.

To support our team, we are seeking an experienced

RampUp TrainingsManager Emerging Markets (m/f)

Job Responsibility

The RampUp TrainingsManager is responsible for organizing and performing global training for the Indivumed clinical collection teams of emerging markets (such as India, Poland and upcoming ones like Singapur and Russia), assuring a unified application of processes required for the collection of INDIVUMED's biospecimens and associated clinical data.

S/He will develop and oversee training for both new hires and ongoing training for all staff responsible for sample collection in such markets. In addition, s/he will support the organization of workshops and team training as requested from customers to establish collection sites independent from the Indivumed network (Third Party Networks). The RampUp TrainingsManager will work closely with the Chief Medical Officer, the Senior Director of Quality Management and the Director of HR to run and maintain training protocols consistent with the Indivumed clinical collection protocols for emerging markets.

In addition, the RampUp TrainingsManager will work closely with our partner networks in existing emerging markets (India, Poland) and planned ones (such as Singapur and Russia) and more to come, to ensure the quality of trainings.

Location / Base

The position shall be based in Hamburg.

Miscellaneous

Travel requirement 60-80%.

Reporting

Reports to Chief Medical Officer based in Hamburg.
